# CPI *Nonviolent Crisis Intervention*® 2<sup>nd</sup> Edition Training

## INSTRUCTOR CERTIFICATION PROGRAM

### Program Summary and Philosophy

CPI *Nonviolent Crisis Intervention*® 2nd Edition Training provides staff with an effective framework for preventing, de-escalating, and safely responding to crisis behavior. The program will focus on what's happening from two perspectives: the person in distress and the staff person. Participants will gain a broad range of tools to help them manage their own emotional responses and identify escalating behaviors in others. They'll practice effective approaches to keep their "emotional brain" from taking over in stressful situations. They'll also discover how having a plan before behavior escalates helps manage their fear and cultivate consistent practices.

The philosophy of *Care, Welfare, Safety, and Security*™ expands throughout the continuum of interventions necessary when working toward the reduction or elimination of restraint. The program realistically addresses the serious issue of restrictive intervention through careful assessment of risks and an evaluation of what may be considered "last resort." The principles and techniques taught in CPI's safety interventions (disengagement skills and holding skills) recognize the critical importance of staff confidence and their ability to safely respond to crisis situations. CPI Post-Crisis strategies assist staff teams in recognizing opportunities to learn prevention strategies in the aftermath of a crisis.

The blended program is comprised of two parts. Part one is an online course, *Nonviolent Crisis Intervention*® training, which provides the core program content. Part two has three classroom days that focus on application of *Nonviolent Crisis Intervention*® content and Instructor Training.

The classroom program has four classroom days that provide the core *Nonviolent Crisis Intervention*® content, application of content, and Instructor Training.

### Program Objectives

- Learn how to respond to various levels of crisis behaviors.
- Understand how to keep your behavior consistent and calm in order to encourage a positive outcome in a crisis situation.
- Learn strategies to strengthen nonverbal communication.
- Develop limit-setting strategies when verbally intervening to de-escalate defensive behaviors.
- Learn safety intervention strategies to maximize safety and minimize harm.
- Explore the Physical Skills Review Framework and key legal and professional considerations when using restrictive interventions.
- Explore the *Decision-Making Matrix*™ when assessing risk behavior.
- Practice non-restrictive and restrictive interventions that are consistent with a set of physiological principles.
- Explore a framework to help guide staff and individuals in distress through a process of re-establishing the relationship.

Crisis Prevention Institute trains and certifies designated people from your organization. After they have been trained by a CPI Global Professional Instructor and successfully passed all components, including the instructor exam, they are qualified to teach at your organization using the approved CPI training materials.

## Facilitation Methods

The online portion of the course includes video and activities to support the content. The content learned in the online portion of the course will be practiced in the classroom.

Classroom and live virtual portions of the course include use of an Electronic Presentation with activities that will aid participants in the implementation of the *Nonviolent Crisis Intervention*® training. Extensive application, case studies, examples, competency-based testing, and an exam ensure that participants gain knowledge and are able to demonstrate skills introduced in the program. Participants will also complete teach backs of the content.

## Training Materials:

**Participant Workbook:** Each training participant receives a Participant Workbook to enhance learning, organize the participant's thoughts regarding concepts taught in the program, and serve as a valuable reference tool following the program.

**Instructor Guide:** Those who successfully complete this program receive a comprehensive Instructor Guide to assist them in facilitating thorough and effective staff training that is consistent with program quality standards, policies, and procedures.

**Instructor Kit:** All participants who successfully complete this program receive an Instructor Kit. This kit includes resource materials necessary to teach their first program.

## Please note:

- Organizational and participant-specific needs will impact timing. When classroom time is reduced, practice and application will be limited. In these situations, informal follow-up training opportunities will strengthen staff skills and learning while improving performance.
- Policy/procedure and participant-specific needs should determine the program option delivered.
- You are strongly encouraged to maintain a record of each program you've facilitated and the names of the participants in those programs.
