

# Nonviolent Crisis Intervention® Trauma Training, 3<sup>rd</sup> Edition

## CONTENT OUTLINE

## Program Summary and Philosophy

CPI's *Nonviolent Crisis Intervention*® Trauma Instructor Certification Program models the course that the Certified Instructor will be teaching back at your organization and provides Instructor Training for participants to gain knowledge and practice related to teaching the course and integrating it within your organization.

The *Nonviolent Crisis Intervention*® Trauma course provides staff with an effective framework for preventing, de-escalating, and safely responding to crisis behavior through the lens of the impact of trauma. The program introduces how to apply knowledge of brain and behavior to understand distress behavior and the reasons for distress. Participants will look at analyzing the risk of behavior and identifying strategies to mitigate the risk. They'll practice strategies to identify escalating behaviors in others as well as use effective approaches to intervene during different crisis levels. Participants will gain a broad range of tools to help them manage their own emotional responses and implicit bias in stressful situations.

There is a focus on staff using the philosophy of *Care, Welfare, Safety, and Security*™ and using trauma-informed and person-centered approaches in their interactions with the people in their care. This expands throughout the continuum of interventions necessary when working toward the reduction or elimination of restraint. The program realistically addresses the serious issue of restrictive intervention through careful assessment of risks and an evaluation of what is the last-resort, reasonable, proportionate, and least restrictive intervention. The principles and techniques taught in CPI's safety interventions (disengagement skills and holding skills) recognize the critical importance of staff confidence and their ability to safely respond to crisis situations. CPI post-crisis strategies assist staff to support individuals and collaborate to identify plans as well as help staff teams recognize opportunities to learn prevention strategies in the aftermath of a crisis.

The blended program is comprised of three parts. Part one is an online course, which includes Introduction to Trauma and *Nonviolent Crisis Intervention*® training. Introduction to Trauma provides an overview of trauma, including the causes of trauma, its prevalence in the world, and resources to be trauma-responsive in your practice. Specific examples and intervention strategies are shared. Part two has three classroom days that focus on application of *Nonviolent Crisis Intervention*® content and Instructor Training. Part three is one live virtual day focusing on trauma content.

## Program Objectives

- Identify types of trauma and their impact.
- Apply the principles of trauma-responsive practice to working with individuals in your care.
- Use the philosophy of *Care, Welfare, Safety, and Security*™ and a person-centered and trauma-informed approach when responding to a person in distress.
- Interpret distress behaviors and address the cause of the behavior to de-escalate the situation.
- Assess risk of behavior using the *Decision-Making Matrix*™ and identify preventive strategies to mitigate risk.
- Identify and respond appropriately to various levels of crisis behaviors.
- Manage your own emotional responses to distress behavior.
- Use your communication skills to be supportive and strengthen your interventions to de-escalate potential conflict situations.
- Use directive strategies when verbally intervening to de-escalate defensive behaviors.
- Use the *Decision-Making Matrix*™ in the moment of Risk Behavior to determine Safety Interventions that represent a reasonable, proportionate, least restrictive, and last-resort course of action.
- Use safety intervention strategies to maximize safety and minimize harm in situations where behavior presents an imminent or immediate risk of harm to self or others.
- Apply a process for support and learning at the end of a crisis situation.
- Explain how you will consider the Physical Skills Review Framework and key legal and professional considerations when using non-restrictive disengagements and restrictive interventions.
- Describe and demonstrate proper use of non-restrictive disengagements and restrictive interventions for an individual presenting risk behavior.

The classroom program has five classroom days that provide the core *Nonviolent Crisis Intervention*® content, application of content, Instructor Training, and specialized trauma content.

Crisis Prevention Institute trains and certifies designated people from your organization. After they have been trained by a CPI Global Professional Instructor and successfully passed all components, including the instructor exam, they are qualified to teach at your organization using the approved CPI training materials.

## Facilitation Methods

The online portion of the course presents the content through narration, video, and interactive activities. The content learned in the online portion of the course will be practiced in the classroom.

The classroom and live virtual portions of the course include use of an Electronic Presentation with activities that will aid participants in the implementation of the *Nonviolent Crisis Intervention*® training. Extensive application, case studies, examples, competency-based testing, and an exam ensure that participants gain knowledge and are able to demonstrate skills introduced in the program. Participants will also complete teach backs of the content.

# CPI Instructor Certification Program Components - BLENDED DELIVERY

## Program Hours – Blended delivery

The 26-hour CPI Instructor Certification Program includes:

**PART 1:** Completion of 3 hours of Introduction to Trauma and *Nonviolent Crisis Intervention*® 3rd Edition online training.

**PART 2:** Participation in 17.5 hours of *Nonviolent Crisis Intervention*® 3rd Edition classroom activities and Certified Instructor classroom training that includes: Preparing to teach the adult learner, comprehensive Instructor training practicum, managing the Certified Instructor role.

**PART 3:** Participation in 5.5 hours of live virtual training focusing on trauma content.

NOTE: A certificate of completion with CPI's continuing education information will be awarded upon full participation in and completion of program components and successful passing exam score (80%).

### Training Materials:

**Participant Workbook:** Each training participant receives a Participant Workbook to enhance learning, organize the participant's thoughts regarding concepts taught in the program, and serve as a valuable reference tool following the program.

**Instructor Guide:** Those who successfully complete this program receive a comprehensive Instructor Guide to assist them in facilitating thorough and effective staff training that is consistent with program quality standards, policies, and procedures.

**Instructor Kit:** All participants who successfully complete this program receive an Instructor Kit. This kit includes resource materials necessary to teach their first program.

### Please note:

- Organizational and participant-specific needs will impact timing. When classroom time is reduced, practice and application will be limited. In these situations, informal follow-up training opportunities will strengthen staff skills and learning while improving performance.
- Policy/procedure and participant-specific needs should determine the program option delivered.
- You are strongly encouraged to maintain a record of each program you've facilitated and the names of the participants in those programs.
