

Nonviolent Crisis Intervention® Autism Spectrum Disorder Training, 3rd Edition

CONTENT OUTLINE

Program Summary and Philosophy

CPI's *Nonviolent Crisis Intervention*® Autism Spectrum Disorder Renewal Program facilitates a deeper understanding of the course that the Certified Instructor will be teaching back at your organization and provides Instructor Training for participants to enhance their skill set related to teaching the course and integrating it within your organization. They'll practice strategies to identify escalating behaviors in others as well as use effective approaches to intervene during different crisis levels through the lens of autism spectrum disorder. Participants will gain a broad range of tools to help them manage their own emotional responses and implicit bias in stressful situations.

The blended program is comprised of three parts. Part one is an online course which includes Introduction to Autism Spectrum Disorder and *Nonviolent Crisis Intervention*® training. Introduction to Autism Spectrum Disorder provides an overview of autism spectrum disorder, including associated features and its prevalence in the world. Case studies and intervention strategies are shared. *Nonviolent Crisis Intervention*® training provides a review of the core program content. Part two is one classroom day where participants review safety intervention skills and practice teaching them. Part three is one live virtual day focusing on autism spectrum disorder content.

The classroom program has three days (including the autism spectrum disorder day) that focus on review and facilitation practice of *Nonviolent Crisis Intervention*® content and safety intervention skills and specialized autism spectrum disorder content.

Any Certified Instructor who has completed the *Nonviolent Crisis Intervention*® Foundation Course is able to participate in the *Nonviolent Crisis Intervention*® Renewal course.

Crisis Prevention Institute trains and certifies designated people from your organization. After they have been trained by a CPI Global Professional Instructor and successfully passed all components, including the instructor exam, they are qualified to teach at your organization using the approved CPI training materials.

Program Objectives

- Understand autism and its impact on development.
- Understand the needs, characteristics, and strengths of individuals with autism and apply them to intervention strategies when working with individuals in your care.
- Use the philosophy of *Care, Welfare, Safety, and Security*™ and a person-centered and trauma-informed approach when responding to a person in distress.
- Interpret distress behaviors and address the cause of the behavior to de-escalate the situation.
- Assess risk of behavior using the *Decision-Making Matrix*™ and identify preventive strategies to mitigate risk.
- Identify and respond appropriately to various levels of crisis behaviors.
- Manage your own emotional responses to distress behavior.
- Use your communication skills to be supportive and strengthen your interventions to de-escalate potential conflict situations.
- Use directive strategies when verbally intervening to de-escalate defensive behaviors.
- Use the *Decision-Making Matrix*™ in the moment of Risk Behavior to determine Safety Interventions that represent a reasonable, proportionate, least restrictive, and last-resort course of action.
- Use safety intervention strategies to maximize safety and minimize harm in situations where behavior presents an imminent or immediate risk of harm to self or others.
- Apply a process for support and learning at the end of a crisis situation.
- Explain how you will consider the Physical Skills Review Framework and key legal and professional considerations when using non-restrictive disengagements and restrictive interventions.
- Describe and demonstrate proper use of non-restrictive disengagements and restrictive interventions for an individual presenting risk behavior.

Facilitation Methods

The online portion of the course presents the content through narration, video, and interactive activities. The content learned in the online portion of the course will be practiced in the classroom.

Classroom and live virtual portions of the course include use of an Electronic Presentation with activities that will aid participants in the implementation of the *Nonviolent Crisis Intervention*® training. Participants will complete teach backs of the content.

Training Materials:

Participant Workbook: Each training participant receives a Participant Workbook to enhance learning, organize the participant’s thoughts regarding concepts taught in the program, and serve as a valuable reference tool following the program.

Instructor Guide: Those who successfully complete this program receive a comprehensive Instructor Guide to assist them in facilitating thorough and effective staff training that is consistent with program quality standards, policies, and procedures.

Instructor Kit: All participants who successfully complete this program receive an Instructor Kit. This kit includes resource materials necessary to teach their first program.

Please note:

- Organizational and participant-specific needs will impact timing. When classroom time is reduced, practice and application will be limited. In these situations, informal follow-up training opportunities will strengthen staff skills and learning while improving performance.
- Policy/procedure and participant-specific needs should determine the program option delivered.
- You are strongly encouraged to maintain a record of each program you’ve facilitated and the names of the participants in those programs.
