

What CPI is Doing to Keep Instructor Certification Participants Safe

In light of the current COVID-19 situation, CPI is closely following the guidelines and recommendations of the Center for Disease Control (CDC) and local governments. We are updating our plans frequently, proactively communicating with our team to discuss programs, locations, hotels, and overall safety of locations. We are also making sure to limit class sizes to meet state and local guidances on gatherings.

We feel it's important to share more about the steps we've taken for our Global Professional Instructors, and the enhanced measures we've now implemented in order to keep everyone safe and healthy when attending a CPI training program. Below are some of the measures we are taking as well as suggested measures for our participants to follow.

Instructor Certification Participant Safety Measures

Participants will:

- ✓ Follow mask-wearing guidelines established by the facility or local community.
- ✓ Be encouraged to wash hands, use hand sanitizer, and wipe down chair and table frequently.
- ✓ Have a consistent partner during training activities.

CPI's Global Professional Instructor Safety Measures

Instructors will:

- ✓ Conduct frequent breaks to hand sanitize and wipe down high-touch areas.
- ✓ Share videos of physical demonstrations shown to reduce physical interactions.
- ✓ Provide coffee and water as allowed per hotel COVID-19 policy.
