

State of Oregon Senate Bill 283 and CPI Certified Instructor Training

Alignment to Crisis Prevention Institute, Inc. (CPI) Training Programs

Funding Available for CPI Training

Effective July 1, 2023, the State of Oregon will make \$5,000,000 available to school districts through the Safe School Culture Grant Program (SSG). These funds have been reserved for school districts to develop a network of Certified Instructors trained in Crisis Prevention Institute's (CPI) *Nonviolent Crisis Intervention*® de-escalation program and to facilitate their training of other school district staff. Grants must be authorized no later than July 1, 2024.

Three Easy Steps to Bring CPI to Your School District

Step 1: Schedule a 15-minute call with CPI. We'll evaluate your current crisis prevention programming to determine how we can help you utilize Oregon Senate Bill 283 to strengthen your school district's approach to classroom management, de-escalation techniques, and positive behavior supports.

Step 2: Obtain a complimentary training program recommendation. We will design and recommend a training plan that will help you to utilize Oregon Senate Bill 283 to strengthen your team in an effective and fiscally responsible way.

Step 3: Train your staff. Using our train-the-trainer model, our Global Professional Instructors will train select staff to become Certified Instructors. Then your Certified Instructors train their colleagues. With CPI training you can begin the school year with new strategies that will decrease office referrals, increase staff morale, and make your school even more safe and prepared than it already is. This is the goal of Oregon Senate Bill 283, and we at CPI would like to help accomplish this goal for you.
